Photo Bull Session

Daz Bog Coffee Shop
556 Lincoln
Loveland, CO
8:30-10:00 AM

Bringing Back PicFix for January

by Bill Standerfer

We are bringing back the popular PicFix for the January meeting. This is a chance for you to take an image created by another LPS member and try your hand at post processing. Download as many images as you want, then process them in your favorite software. When you're done, upload them and we'll look at your work during the meeting.

Here are some examples of images that have been submitted. To download the images, go to <http://sdrv.ms/1foZftM>. Download and post process as many image as you wish. You can download them individually or select Folder Options>Download folder at the top to download all as a folder.

Rename your photo(s) with the original image number and your name added. (####YourName.jpg)

Email your finished image(s) to PicFix@lps.cc. Depending on size of images, you might have to email 2 or 3 at a time if you have several.

Deadline Extended! Please have your completed images back by Friday, January 10, 2014.

The more participating, the more fun!

Master - Traditional

Tulip - Ruth Sprain

Warm Cabin - Michael Cox

The View From The Hill

by Bill Standerfer

newsletter@lps.cc

When Stephanie Cox said she wanted to turn the newsletter over to someone else, it got very quiet in the board meeting. In a weak moment, I said I'd take the job temporarily (Wanted: Newsletter Editor, in case you're interested!) until a more permanent editor can be found.

So, to introduce myself, I've been an LPS member for several years and am also the web content admin, responsible for trying to keep the website up to date and running. I've been an amateur photographer for a bit over 40 years, but, since retiring from Agilent a few years ago, I'm now doing commercial photography professionally.

We live on a little hill north of Fort Collins, hence the title for this column. We have a great view of the Front Range, but we're also close to Cheyenne, so we have the

Wyoming wind to deal with.

We have an airplane and I'm a flight instructor, so things that fly are often subjects for my Nikons. I also like big, greasy steam locomotives. And, I don't think you can live in Colorado and not like to photograph the landscape and our wildlife.

I'll end this month's column with a little challenge for your 2014 photography - try photographing something completely different than your normal subjects. If you shoot nature most of the time, try a car show or an airshow. Learn how to do a formal portrait or photograph the weather. Do something to challenge your photographic skills and your eye. Let's see the results in the monthly competitions.

Oh, and just one more thing. Thanks to Stephanie for all her work with the newsletter the past few years.
